this dictionary provides the theoretical summary and conceptual framework around the milestones obtained through Chinese reform and development and highlights the research achievements of Chinese economics over the past 40 years. It also presents Chinese economics to the world, featuring the Belt and Road Initiative and the Chinese Theory and Chinese System to be known and shared internationally. With a Chinese intellectual foundation, it sets out to frame the theoretical achievements of extraction and summary of practice experience from Chinese reform and development. The choice of entries in the dictionary seeks to embody the very Chinese characteristics of economics and the combination of theory and practice is illuminated. Furthermore, the dictionary explores examples of scientific achievements that traditional economics has brought forward and how they fit and unify within both a Chinese as well as an international context.

Professor William Nordhaus was honored with a Nobel Prize in Economics for his lifetime contributions to research and policy on climate change and macroeconomics. This book contains a collection of essays written by eleven leading climate change economists, describing precisely how Professor Nordhaus changed climate change economics. The essays highlight the major contributions that Professor Nordhaus has made to understanding climate change. The book also discusses the important contributions Professor Nordhaus has made to develop effective policies to manage greenhouse gases both now and far into the future. Several authors also thank Professor Nordhaus for the influence he has had on the trajectory of their own careers. Finally, the essays press forward and discuss how the entire field continues to work on perfecting both climate change economics and policy.
